# pressed & poured glass™

Durability, transparency, three-dimensional interlayers, and . . . playfulness? Reconsider your view of architectural glass applications. 3form Glass™ is artistic, ethereal, and open to your creative customization.

## Features

- the resilience and strength of laminated safety glass (meets ANSI Z97.1 criteria)
- front and back surfaces comprised of glass making for non-combustible surface
- rigidity of glass allows for use in a variety of horizontal and vertical installations
- crystal clear structure encapsulating a variety of interlayers to control levels of translucency
- order to size
- pressed glass is customizable with C3 Color Matching System\*

## BASIC SPECS

### PRESSED

#### DIMENSIONS:

widths 36" - 48" (914 mm x 1219 mm)  
lengths 96" - 120" (2438 mm x 2925 mm)

#### GAUGES:

ranges 5/16" (7.9 mm) – 1 5/16" (33.3 mm)

#### FINISHES:

clear float glass, fritted glass,  
acid-etched glass, low-iron glass

#### EDGING:

various options

### POURED

#### DIMENSIONS:

widths 36" - 48" (914 mm x 1219 mm)  
lengths 96" - 120" (2438 mm x 2925 mm)

#### GAUGES:

3/4" (19.0 mm) (tolerance is +/- 1/8")  
Larkspur: 7/8", Tangle: 1" (tolerance is +/- 1/8")

#### FINISHES:

clear float glass, fritted glass,  
acid-etched glass, low-iron glass

#### EDGING:

various options
