

Design has the power to transform more than just space. It can positively change our planet, our environment, and people's lives. 3form Full Circle[®] is a class of sustainable products, a program, a creed, and a belief put into action.

SADA - 3FORM FULL CIRCLE

From remote villages in the Everest Base Camp Region to the country's busy capital of Kathmandu, 3form products utilize various avenues of local trade in Nepal. 3form products have successfully created hundreds of jobs in one of the poorest countries in South East Asia – including jobs for those who harvest, transport and hand-process Lotka bark.

The Nepalese artisans prepare traditional Buddhist "prayer paper" from the Lotka bark which grows wild in the Himalayas. They combine the hand-made paper with high-grade copper strips through age-old Newari weaving techniques to create the stunning Sada product.
