

## Finishes

Refine and complete your Varia Ecoresin creation with one of our 8 unique finishes. Choose the high gloss of Patent, the opacity of Supermatte, or the gentle texture of Stucco. You can even put a different finish on the front and back to achieve the optimal degree of light transmission.

### Markerboard Plus

A high-gloss finish with dual purpose dry-erase board capability

### Patent

A high gloss finish with highest light transmittance

### Patina

A non-glare finish with smooth appearance

**Sandstone**

A durable finish with subtle texture

**Sfx Frost**

Applied frosted finish with paper-like appearance

**Stucco**

A durable finish with a pebbled texture

### Supermatte

More durable than Patina, a delicate finish with a frosted matte appearance

## Gauges

Varia Ecoresin is available in gauges from 1/16 to 1 inch.

WHEN CHOOSING A GAUGE, THE FOLLOWING ISSUES SHOULD BE ADDRESSED:

What gauge is needed for the application?

Which gauges are available across the Varia Collection?

In order to determine what gauge is needed for the application and to check availability, please contact your 3form specialist.
