

Design Your Custom HighRes or Halftone Gradient 4' x 10'

Using the large diagram below, please specify the design of your custom gradient sheet and indicate where you would like it to be cut. We will use this drawing to manufacture the sheet(s) on your order. Gradients can run either direction. Please note which side of the panel is the top and which is the bottom, as well as the start and stop points of the gradient. Anything beyond these points will be solid color or clear, depending on the gradient.
