

**3form**

Spring 2016

## Color Portfolio

250 colors. One system.

3form® offers the most comprehensive assortment of translucent colors for design applications. These hues can be used across any of 3form's materials: Varia, Chroma, Struttura, Glass, and Koda XT.

# Shapes

## Solutions

Dimensional shapes suspended from the ceiling are a great way to subtly separate or even transform a space. Combine any of our three new shapes with the Color Portfolio to add your unique signature.

Available in 250 colors

Shown in Flag

Flag

Parasol

Crimp

# Edge

Solutions

These decorative modular fins evoke a sense of movement and rhythm through form and color. To further this idea, we're adding five new designs ranging from easy angles to complex points.

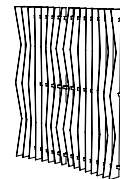

Available in 250 colors

Angle

Hourglass

# Elemental

## Materials

Texture engages the sense of touch and provides information about what something is made of. Elemental is our new 100% post-consumer recycled paperboard that is textural and metallic, and is available in Edge, Wovin Wall, Wave Wall, and Ripple Wall.

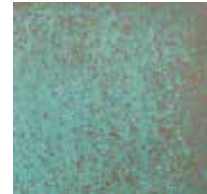

Shown in Galvanized Copper, Wovin Wall

Rust

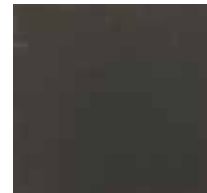

Galvanized Copper

Patina Copper

Patina Rust

Steel

# Custom Imagery

## Patterns

Create a look of your own or choose from a curated collection of 3form's stunning images including four new nature scenes. The beauty of imagery in Glass or Varia can span up to four panels.

Shown in Weathered Wood, BoxWall

Fountain Grass

Winter Aspen

Golden Branch

Weathered Wood

## Hardware Snap Covers

### Capabilities

Hardware is an integral part of many 3form installations, but it doesn't have to look like it. Our new Snap Covers were created to conceal 1" diameter Point Support hardware caps and can be matched to any hue in the Color Portfolio.

Available in 250 colors
